

MEDIA WALL ARTWORK GUIDE

Your media wall artwork will be the *EXACT* same size as the final product.

For the best quality and smallest file size, we recommend that you create and upload your artwork as a *vector file (such as .ai, .eps, or vectored .pdf)* rather than a rastered, pixel-based file. Rastered files must be *150dpi minimum*.

As with all of our products, the color mode *must be in CMYK*.

Dimensions Guide (W x H)

8'x 8'

Inches: 96" x 96"

Pixels (150dpi): 14400x14400

9'x 8'

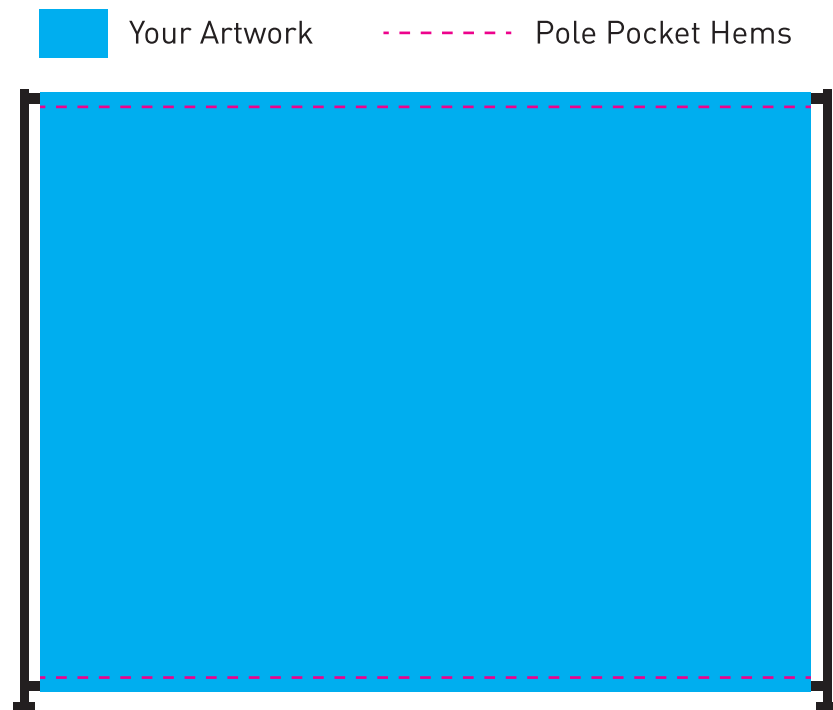

Inches: 108" x 96"

Pixels (150dpi): 16200x14400

10'x 8'

Inches: 120" x 96"

Pixels (150dpi): 18000x14400

Note: There are 3" pole pockets at the top and bottom of the product. The seams from the hemmed pole pocket will be visible 3" from the top and bottom of the artwork.
